Business Diamond - 28

Managerial Levers - 29

Assessing the organization’s Use of IS - 31

Brief Overview of IS Strategy - 34

IS strategy matrix - 35

Strategic Use of Information Resources

Evolution Of Information Resources - 5

Mission statements of computer companies - 6

The Strategic Role for IS – Value Creation - 8

Information Resources as Strategic Tools - 9

Information Resources - 10

IT Assets - 11

Categories of IT Capabilities - 13

Advantages of Information Resource - 15

Information Resources Strategy - 19

Using Information Resources to Influence Competitive Forces - 20

Five competitive forces with potential strategic use of information resource - 21

Application of five competitive forces model - 22

Porter’s Value Chain Model - 23

Resources to Attain Competitive Advantage - 25

Resources to Sustain Competitive Advantage - 26

Strategic Alliances - 28

Types of Strategic Alliances - 29

Potential Risks - 30

Co-Creating IT and Business Strategy - 32

Organizational Strategy & Information Systems

Organizational Strategy - 5

Organizational design variables - 6

IS and Organizational Design - 7

Decision Rights - 8

Formal Reporting Relationships and Organization Structures - 9

Comparison of organizational structures - 10

Hierarchical Organizational Structure - 11

Flat Organization Structure - 14

Matrix Organization Structure - 15

Networked Organization Structure - 16

Networked Organization Structure and IS - 17

Informal Networks - 18

Social Network - 19

IS and Management Control - 20

Planning and Information Systems - 21

Data Collection and IT - 22

Monitoring and Performance Software - 23

Performance Measurement, Evaluation, and IT - 24

Incentives and Rewards and IT - 26

Information Systems and Culture - 27

Levels of Culture and IT - 29

Organizational Culture and Information Technology Management - 31

National Cultural Dimensions and Their Application - 32

Hofstede Dimensions and the GLOBE Dimensions - 33

Awareness of Cultural Differences - 36

Information Systems and The Design Of Work

Work Design Framework - 5

IS Effect on How the Work is Done - 6

How IT Supports Communication - 8

IT Supports Collaboration - 9

IT Alters Employee Life - 10

Creating New Types of Work - 11

New Ways to Do Traditional Work - 12

Changing Communication Patterns - 13

Changing Collaboration - 14

New Challenges in Managing People - 15

IT Has Changed Hiring - 19

Telecommuting and Mobile Work - 21

Factors Driving Telecommuting and Mobile Work - 22

The Growth of Telecommuting - 24

Disadvantages of Telecommuting – Managers Position - 26

Disadvantages of Telecommuting – Telecommuters Position - 27

Managerial Issues in Remote Work - 29

Security Issues in Remote Work-30

Virtual Teams - 31

Technology Acceptance Model and Its Variants - 42

Information Systems for Managing Business Processes

Silo Perspective Versus Business Process Perspective - 5

Functional (Silo) Perspective - 6

Disadvantages of Functional (Silo) Perspective - 7

Hierarchical structure - 8

Process Perspective - 9

Business Process and Work Flow - 10

Management Approach to Process Perspective - 12

Cross-functional nature of business processes - 13

Building Agile and Dynamic Business Processes -

16

Building Agility - Using the Internet and Social Technology - 17

Changing Business Processes - 18

Incremental Change - 19

Total Quality Management - 20

Six Sigma Methodology - 21

Radical Change - 22

Workflow and Mapping Processes - 25

Business Process Management - BPM - 26

Enterprise Resource Planning (ERP) - 32

Characteristics of Enterprise Systems - 34

Managing Customer Relationships - 35

Common CRM Systems - 36

The Process for Radical Redesign - 37

Managing Supply Chains - 38

Integrated Supply Chains Challenges - 39

Product Lifecycle Management (PLM) - 41

Benefits of Enterprise Systems - 42

Challenges for Integrating Enterprise Systems Between Companies - 45

The Business of IT

Maturity Model - 4

What a Manager Can Expect From the IT Organization - 7

Activities in the IT Organization - 10

Managing IT Activities Globally - 13

What the IT Organization Does Not Do - 15

Chief Information Officer (CIO) - 16

Building a Business Case - 18

IT Portfolio Management - 23

Asset Classes of IT Investments - 24

Portfolio Management Perspective - 25

IT Portfolio Business Strategies - 27

Valuing IT Investments - 29

Management Approach to Valuing IT Investments - 31

Analysis Pitfalls - 32

Monitoring IT Investments - 33

The Balanced Scorecard - 34

IT Dashboards - 38

Funding IT Resources - 41

Chargeback - 42

Allocation - 43

Corporate Budget - 45

Direct and Indirect Costs - 49

Activity-Based Costing (ABC) - 50

Total Cost of Ownership - 51

TCO Calculation for IT Infrastructure - 52

TCO Component Breakdown – Hardware and Software - 54

TCO Component Breakdown – Informal Support - 56

Governance of the Information Systems Organization

IT Governance - 5

Centralized versus Decentralized Organizational Structures - 6

Organizational continuum - 7

Organizational Structural Approaches - 8

Advantages and disadvantages of organizational approaches - 9

Federal IT - 10

Another Perspective on IT Governance - 11

IS decision rights-accountability gap - 12

Five major categories of IT decision - 14

Political Archetypes - 15

IT governance archetypes - 16

IT Governance and Security - 17

Decision Making Mechanisms - 19

Governance Frameworks for Control Decisions - 20

SoX - Financial Controls - 22

Frameworks for Implementing SoX – COSO - 24
